Research Policy

Promotion of research aptitude amongst staff and students is the main focus of the research policy of the institution. This research policy has been framed to analyse, understand and effectively respond to all types of challenge posed in the pursuance of quality Research.

The following are the points which chart the Research policy of the college.

COLLEGE

- ❖ The college will facilitate the research activities by providing infrastructural facilities. The college will allocate space, facilities, and other resources for research programs based on the scholarly and educational merits of the proposed research.
- ❖ To enhance infrastructural facilities in terms of modern sophisticated instruments and equipment, the college will additionally provide financial assistance for the purchase of equipment / instruments and thus support the staff and students to carry out the research work at college.
- ❖ The college will encourage the Faculty members to attend the research training programmes.
- ❖ The college will support the departments for the organization of State level and National level conferences. Every UG department must organize minimum one University/State/National/International, conferences, seminars, workshops in every three years.
- ❖ The college will also sanction a substantial budget for the purchase of reference books of various subjects from all streams, research journals/magazines and to subscribe the online research journals.

DEPARTMENTS

- ❖ To ensure the optimum use of instrumental facilities the departments may provide research data / instrumental measurements through instrumental facilities available in the departments to the college students and staff.

FACULTY

- ❖ Faculty members must take up interdisciplinary research. More number of students must be involved in inter disciplinary research projects.
- ❖ The faculty members have freedom to investigate areas and ideas which are in resonance with the issues related to society and current developments.
- ❖ The research methodologies should not violate professional concerns like safety, privacy, research ethics, conflicts of interest amongst authors etc.
- ❖ In every academic year, faculty members should try to publish research articles, write research proposals to various agencies like BCUD, UGC etc.
- ❖ Faculty members should try to collaborate with faculties of other institutes or colleges and industries for research projects. Such collaborations should be formalized through official communication and copy of the same should be submitted to IQAC.
- ❖ It would be mandatory for every department to invite at least one eminent researcher in the academic year from institutes of national or international repute and organize his/her guest lecture. For such activity, the remuneration charges and hospitality of the guest would be borne by the college.

- ❖ Every Faculty must try to attend and present his/her research work at State/National /International levels conferences, seminars and workshops.
- ❖ It is the responsibility of the Faculty members to ensure no violations of ethics in their research publication like plagiarism, incomplete or faulty data, fabricated results etc. Original and novel research work must be submitted to the journals for publication. In all the publications it would be mandatory for the Faculty to mention the affiliation of the institution.
